

# Norma and Michael Urteaga

Ensenada / Los Angeles, CA

**As parents, we chose to take on the task and as well thinking out of the conventional way of education system; to step out in faith with our 3 children to a higher calling and better prepared academic path.**

**God opened the opportunity in 2011 and we started, with a little bit of insecurity at the very beginning, but God put Maureen in our way and right away we felt then we were on the right track to decide to choose BCA. Working alongside us was an incredible blessing to have her every step of the way.**

**All the classes, extracurricular activities, Standardized Testing, all the fellowship, all the field trips and all the experiences that we had throughout the years were great. The idea to be able to enjoy our family day by day was amazing! We won't ever finish thanking God for this opportunity, he has given our family and the experience that He gave us through this with BCA family directed by Maureen.Katase.**

**In the beginning of our educational endeavor we were unsure about working with BCA, because of our own ideas and mind set, but as soon we got to know Maureen and she started talking to us about all the meaning of being a partner in education with their academic program-school she quickly put our doubts at ease and we set them aside. She was knowledgeable and pleasant to work alongside with us throughout all these years.**

**We educated 3 children with BCA and worked with Maureen for a total of 13 years, and all our 3 children have graduated successfully through BCA and have now graduated from College. We had our ups and downs but God helped us all by having Maureen as a guide working hand by hand in our school academics with our kids.**

**As experienced BCA parents we know that if someone is interested in being part of this Academic Program, it is a lot of consideration at first, that as a parent you will need to dedicate your time and effort to be decided to work for the good of your children. But I tell you that you will never regret it!**

**We thank you so much God for putting this option in our lives and we are so grateful to meet Maureen and her family for coming a long side our life and academic journey thorough al, these years.**

Deuteronomy 32:1-4
